

## **The CIH<sup>LMU</sup> Center for International Health offers two courses on occupational health and safety**

Annually, safety and health hazards at work are responsible for at least 1 million deaths. Especially in developing countries the individual worker as well as the society is severely affected. Currently, only about 15% of workers in these countries have access to Occupational Health and Safety Services (OHSS).

In this context, two courses – funded by DAAD - are offered in collaboration with universities and institutions in Europe and Latin America.
